Search Teams

Four Types of Search Teams

Search Team Composition:

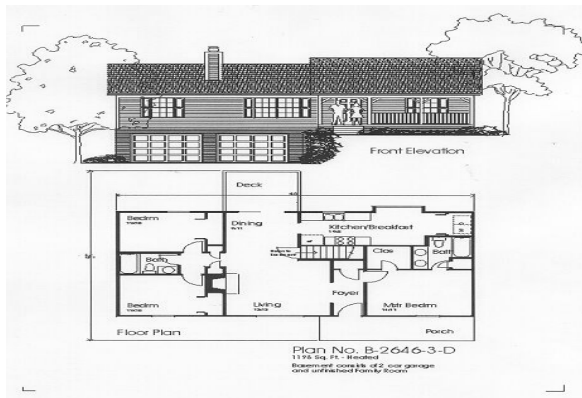

-4, 2x MAN SEARCHTEAMS
-No. 1 MAN PRIMARY
-No. 2 MAN OVER WATCH

Bomb Search Plan Considerations:

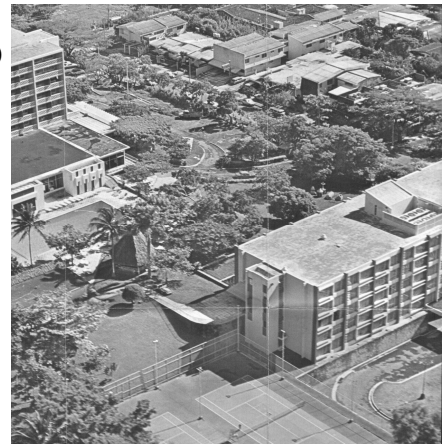

- Generate a plan (must include search criterion based on analysis of the bomb threat)
- Clear C2 (Command and control or C2 is the key to a successful well coordinated bomb search—these are the people in-charge the decision makers)
- Search methodically
- Search the assigned area painstakingly before moving to another
- One man search teams are acceptable/two-man teams are more desirable
- Make as little changes to the environment as possible
- Generate uniform marking system
- Time factor (if a time device is suspected—ID by threatening call or otherwise—team must be extracted from building ½ hour prior to know detonation time)
- All teams must begin search at the same time

 - Mirrors
 - Ladders
 - Mechanical breaching tools
 - Hand tools
 - Non-ferrous (non-Iron) probes

Detailed Room Search Cont.:

*** Visual search (in order)**

Detailed Room Search Cont.:

- Physical search
 - Use tape or string (wall to wall)
 - Use mirror under desks and chairs
 - Open windows
 - Open access panels
 - Search fuse boxes
 - Desks drawers
 - Rugs (do not roll. Fold to prevent detonation of devices)
- Book shelves

Detailed Search Cont.:

- Side walls
- Opposite walls
- False ceiling
- once the search is complete...mark room with tape
- Turn in card with location and comments of search
- Compare card with floor plan and id areas that still need to be searched

What To Do With IED's:

- Do not touch
- Call or notify Authorities
- Notify EOD (Explosive Experts)
- Mark location
- Evacuate area

Upon removal of IED search teams will re-enter structure and continue to search the rest of the building
